ABOUT ME

I have a professional background in Business Information Technology, and Software Engineering. Am passionate about Humanity, and Sustainability; I have the brains of an engineer and the heart of a humanitarian. I use my skills and experience to help small businesses and NGOs use a wide range of technologies. I have over 5 years of experience working with Software Companies, NGOs, and Sustainability organizations.

WORK EXPERIENCE

United People Global - Deputy Captain Nairobi Change-makers Community of Champion,

Date: 06/05/2022

About the Organization:

United People Communities of Champions; is a non-partisan, non-religious group; We are a network of engaged citizens who help make the world a better place through positive and constructive action.

Roles and Achievements

-Mentor, I am directly involved in the mentoring of about seven sustainability leaders within my community who later impact one or two others through the mentorship I give them.

-Leadership, as a key leader in this group I have developed and learnt to effectively use the following skills; communication, being a teacher and learner all at the same time, motivator, manager and servant at the same time.

-Able to work well with a team of different people despite gender/sexuality, religion, race, academic levels, and personal opinions.

-Capable of designing, formulating and executing sustainable projects.

Tech Volunteer and Community Manager(Ghana) for Slum2School-

Served as volunteer for their technical team and their Community manager in Ghana,

Volunteer at Slum2School Nigeria, actively engaged with the technical team to develop and optimize software solutions tailored to meet the organization's specific needs. Recognized for my dedication and commitment, I was appointed as the Volunteer Community Manager, entrusted with a pivotal role in steering Slum2School's expansion across African countries, more specifically in Ghana to address the pressing challenges that hinder children's access to education continent-wide.

Cofounder of two Software/Tech Startups - *Served as CTO and CEO,*

Co-Founder of Jambovest(Served as CTO), a dynamic fractional investment platform aimed at empowering young Africans and diasporans with secondary income opportunities through real estate investments. Incubated by MEST Africa, a subsidiary of Meltwater, in Ghana. After its Failure I leveraged invaluable experience and insights from Jambovest to establish a successful real estate, property management, and rental startup in Nairobi.

AWARDS & ACHIEVEMENTS

- Co-founded Green Legacy World (An SDG centric Startup based in Kenya and Cameroon). I was part of the ICT team that helped build their website.
- Awarded Certificate of Distinguished contribution to the UPG community Forum
- Certified United People Global Sustainability Champion,
- Awarded Certificate of Software Entrepreneurship by MEST Africa,
- Alumni of the Hurricane institute of Science and Leadership,
- Two times World Bank Youth Group Delegate -2021 and 2022,
- Together with the IT team at Ngongroad Children's Foundation we were able to set up a central organization documentation software (Knowledge Base) inspired by the open-sourced Bookstackapp.
- Developed a Learning Management system for Slum2School
